ZOOks

by Kristoff & Dimitri Leue

with Matteo Simoni, Frank Focketyn, Warre Borgmans

In a kingdom where man and nature are segregated, twelve year old Robin runs off into the forbidden forest where she meets Wolf, the young true heir to the throne. Robin, Wolf and some unexpected allies set in motion an adventure which will topple the Bad King and restore balance between man and nature.

The fantastic, near-reality texture of the ZOOks universe is captured in settings based on 2D opaque paintings and reinforced by the rotoscope technique.

ZOOks' unique visual style has been baptized "Manga Belge", evoking the graphic novel and its animated counterpart. ZOOks has a slightly Asian feel that makes it edgy, urban and vivid. That's why manga is a good reference. Belge is added, because the aspired visual identity is richer than the Japanese "less is more" approach. The release of the film in Benelux is also combined with an online game and community challenges in collaboration with the WWF.

Directors' Statement

"ZOOks is the story of man's challenging relationship with nature, translated into a metaphorical conflict of two royal brothers, King Alexander and Prince Ferdinand. ZOOks intends to enrich its family audience with knowledge of and love for nature, engaging it to discover nature. We developed a unique workflow for the animation of the film, combining 2D rotoscopy with 3D sets"
